

AGGREGATE & CONSTRUCTION

Comprehensive solutions and capabilities for complete turnkey support

FIELD SERVICES

DESIGN & ENGINEERING

MANUFACTURING & REPAIR

Improving your assets and operations

Our specialized engineers and expert field team use state-of-the-art equipment to work at the forefront of evolving aggregate and construction machine technology in the field. From complete crushing and processing systems to rebuilds, tear-downs, and equipment relocations, we offer comprehensive support on your mobile fleets. You can count on L&H for the best turnkey products, services, and field support in the industry..

AGGREGATE & CONSTRUCTION

Keeping your critical equipment and operations out of critical condition

State-of-the-art manufacturing, fabrication, and repair to keep you up and running

L&H develops industry leading designs that are changing equipment maintenance, safety, and productivity for operations. We deliver it all through our global network of partners and manufacturing locations that house massive fabrication, precision machining, extreme quality standards, and innovative engineering teams. There isn't much we can't take on; and we love a good challenge.

50 years of advanced engineering and field service

Master tradesman and specialized engineers equipped with the best of the best

Serving heavy industrial operations for over 50 years, we have repaired equipment and seen why it fails. We make equipment better, because we know you can't afford for your equipment to be down when there is a job to do. From your dozer's undercarriage to your loader's bucket or your crusher's tramp relief system, we have your operation and equipment covered.

Select equipment and components

- Impactors
- Mobile plants
- Haul trucks
- Graders
- Loaders
- Dozers
- Excavators
- Miers
- Dryers
- Agglomerators
- Storage
- Transfer equipment
- Crushers (primary, secondary, tertiary)

L&H Field Services

- Equipment audits and troubleshooting
- On-site machining, welding, and installation
- Equipment rebuilds
- Machine customizations and relocations
- Gearbox rebuilds
- Repairs

Higher performance and safety standards

100% of L&H premium components meet, or more often exceed, OEM performance, quality, and safety standards.
