Helping our customers reach  
sustainability for the future

FIELD SERVICES

DESIGN &  
ENGINEERING

MANUFACTURING  
& REPAIR

## Improving your assets and operations

Our specialized engineers and expert teams use state-of-the-art equipment to work at the forefront of evolving Cement Plant technology. From complete processing systems to rebuilds, tear-downs, and equipment relocations, we offer comprehensive support on your fixed assets. You can count on L&H for the best turnkey products, services, and support in the industry.

CEMENT  
MANUFACTURING

## Keeping your critical equipment and operations out of critical condition

### State-of-the-art manufacturing, fabrication, and repair to keep you up and running

L&H develops industry leading designs that are changing equipment maintenance, safety, and productivity for operations. We deliver it all through our global network of partners and manufacturing locations that house massive fabrication, precision machining, extreme quality standards, and innovative engineering teams. There isn't much we can't take on; and we love a good challenge.

## 50 years of advanced engineering and field service

### Master tradesmen and specialized engineers equipped with the best of the best

Serving heavy industrial operations for over 50 years, we have repaired equipment and have a good understanding of the challenges our customers face with keeping it operational. We make equipment better, because we know you can't afford for your equipment to be down when there is a job to do. From your crushing, screening, conveying and mobile equipment needs, we have your operational equipment covered.

### Select equipment and components

- Raw Mills
- Ball Mills
- Kiln Gearing
- Coal Mills
- Clinker Coolers
- Rotary Feeders
- Bucket Elevators
- Pan Conveyors
- Bag Houses
- Dryers
- Hydraulic Cylinders
- Transfer Equipment
- Crushers

### L&H Field Services

- Equipment audits and troubleshooting
- On-site machining, welding, and installation
- Equipment rebuilds
- Machine customizations and relocations
- Open and closed gearing installation and maintenance
- General and complex repairs and maintenance
- Installation and commissioning of new equipment

### Higher performance and safety standards

100% of L&H premium components and machinery meet, or more often exceed, OEM performance, quality, and safety standards.

Learn more about L&H services and our components and assemblies for specific industrial solutions on our website, or contact us to find out how we can improve your industrial solutions.
